- **Save time when sending files:**
  Send patient records, such as 2D and 3D X-rays, with the click of a button. Partners can view X-rays and intraoral scans, comment on patient files, download files, and send additional files back without a paid DS Core account.
- **Safe and inexpensive file transfer:**
  No more USBs or DVDs sent through the mail or delivered with a carrier service. Now you can make use of a dental file sharing platform that supports HIPAA/GDPR compliance.
- **View files from anywhere:**
  Access patient files through a web browser anywhere and at any time. An embedded 2D and 3D X-ray and intraoral scans viewer allows you and your partners to look at files directly on DS Core.
